DETAILED ACTION

Allowable Subject Matter

Claims 1, 2, 4, 7-10, 13, 15, and 16 are allowed in view of the Applicant's arguments (see Applicant's Response, filed 11/18/2005, page 8, last paragraph, page 11, paragraphs 1-3) and the cited prior art of record. The independent claims recite determining if client and server are on the same system, and if they are, setting up a socket connection through the Transport Layer but bypassing the connection-oriented protocol by setting socket pointers, and if any errors occur during transfer of data, switching back to using the connection-oriented protocol, which, in addition to the rest of the claim limitations, are distinguished from the prior art. For support of the claims, see Instant Specification (Spec, paragraphs 10, 12, 15, 16, 31-33, 37)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
